To: The Indian Embassy, Dushanbe

Administration of Tajik National University (TNU) expresses its appreciation for the fruitful cooperation between our institutions. In accordance with the rules and regulations of the National Medical Commission (NMC), TNU kindly informs that the medical education provided by Tajik National University to all its students is valid. This is a conditional offer of admission to the Bachelor degree program at TNU. The admission is contingent upon fulfillment of the following conditions and completion of the admission process as described below:

1. The duration of the MBBS (Physician) program as per the curriculum is 5 years, which meets most of the NMC requirements and provides 60 months of course duration. Moreover, the current curriculum will be start from the 2024-2025 academic year and is designed in accordance with NMC requirements and the state standard of the Ministry of Education and Science of the Republic of Tajikistan that allows issuance of state diplomas.

2. All graduates, regardless of their nationality and country of origin, will be issued the same diploma, which will allow them to register with the Tajik professional regulatory body and obtain a license to practice medicine and assist physicians as a “General Medicine Specialist” in the Republic of Tajikistan on an equal basis with local residents.

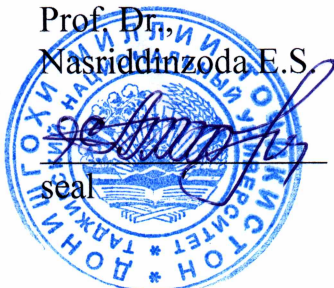

3. All graduates will complete a 12-month Compulsory Rotational Medical Internship satisfying the requirements of the university management and meeting the requirements defined in the above-mentioned notification from the NMC.

4. The medium of Instruction of the complete course is in English.

Tajik National University is a dynamic educational institution and conducts its activities since 1947. TNU is training highly qualified personnel with world standard competencies, ready for global competitiveness and active participation in the process of international and regional integration.

Having stated all these facts, we conclude that Tajik National University fully satisfies and compliance with the regulations defined by the National Medical Commission.

Rector,
Prof. Dr.
Nasriddinzoda F.S.
